Design your cheque layouts with customised mapping

View MIS report on cheque print status and inventory management

Secure, efficient and error-free

Manage delivery of payments efficiently through a secured channel. Inbuilt controls eliminate the risk of duplicate cheque issuance. You can also void or cancel cheques when faced with printing errors and issues. The service allows you to upload and print bulk cheques.

Frequently Asked Questions

How can I request for a cheque book and where will it be delivered?

Cheque books must be requested through smartBUSINESS - our online business channel for corporates. The service can be found under the Cheque Printing product with "Requests" menu. Cheque books will be delivered to the address registered with your bank.

Will I be able to customise the cheque book?

The cheque advice template can be customised with your company logo. This is achieved through a one-time set up on smartBUSINESS - our online business channel for corporates.

Would the cheque need to be physically signed by the authorizer of the company?

Signature of the authoriser is uploaded on the remote cheque printing application as part of the on-boarding process. These signatures will be digitally printed on cheques, based on a pre-defined online approval workflow.
